Modern Mums

Hybridizers-Growers of Fine Perennials

3100 LEIGHTON AVENUE - LINCOLN, NEBRASKA

December 1 ,1962

Dear Friends ,

We are real thankful for a fine growing season this year with ample rainfall and a cooler than normal summer . Like much of the country we too had an earlier than usual blooming season for mums and a long frost and freeze free fall .

To try to keep well informed on the newest and best in mums we visit a number of the outstanding mum hybridists each fall . On our visit with Glenn Viehmeyer at North Platte we were real impressed with his new group of "Giant Football mums " rivaling the English and Harvest Giant groups . Glenn is introducing two of this fine group of incurves , Stadium Queen and Quarterback . Our new list of "modern mums " is highlighted with the beauties from Nebr. Uni. Lehman Gardens , Gilbert Becker , Bristol Nurseries and our own new introductions for '63 .

We are introducing two garden "pinks " and one hardy carnation chosen from our breeding program . One Dianthus , an improved Pink Pixie , is named Tinkerbell . The other Dianthus , a rich double pink with red eye is called D. Sweetheart . Our new carnation , a rich double samon-pink , we've named Coral Charm . You will note we've enlarged our listing this year of those little charmers , the miniature roses, with a number of fine new varieties .

We extend to you a most cordial invitation to visit us and see the many new varieties in perennials spring through fall . We wish to thank you most sincerely for your interest and patronage . We shall continue to do our best to warrant this support .

Sincerely ,

The Flemings

The University of Nebraska Mums

UNIVERSITY OF NEBR. 1963 FOOTBALL MUMS per10 per 100

STADIUM QUEEN - Another of Glenn's fine group of "football giants " The plant form on Stadium Queen and Quarterback are a big improvement on the English and Harvest Giant mums . Plants are strongly upright and yet bushy bearing many large flowers singly in huge incurves 5-6" across in rich red with glistening gold reverse . With age flowers incurve strongly into large balls revealing gold reverse . Blooms from mid Sept, on . 2.65 25.00

TWO BRISTOL NURSERIES 1963 MUM INTRODUCTIONS

PRIMROSE ANEMONE - An outstanding , unique anemone-flowered cushion mum created by Roderick Cumming . Strong cushions 10-14" high and 28" across bear numerous 2-2½" light primrose-yellow flowers with distinctive darker yellow crested centers . Blooms from early Sept. on . A real favorite with our visitors while in trial at our fields this past fall . 1.70 15.00

QUEEN'S TASTE - Graceful large , strong plants with attractive dark foliage 24-28" high . Large fully double decoratives 3½-4" across with pointed petals in soft pink with deeper tannish-pink centers. Flowers have a light green haze at centers . The long lasting flowers mellow to soft creamy white . Mid Sept on . 1.70 15.00

NEW VARIETIES

New Fleming Carnation- Dianthus Introductions

Carnation CORAL CHARM(1963) The best salmon hardy carnation we grown . Perfectly formed extremely double bright salmon-pink carnations on strong 10" stems . Coral Charm blooms much more freely during the summer than most hardy carnations 1.70 15.00

DIANTHUS SWEETHEART (Fleming '63) Attractive mounds of blue , grey green foliage 4" high and up to 12" across serve as a base from which arise numerous beautiful flowers. The double carnation-like blooms of a bright rose-pink with red centers are carried on stiff 6" stems . Blooms heavily in late spring . 1.70 15.00

DIANTHUS TINKERBELL (Fleming 1963) Another of our cute dwarf ever-blooming pinks. A splendid companion for the very popular Pink Pixie . Plants are compact mound 2-3" high bearing myriads of bright pink blooms continously spring thru fall. 1.50 13.00

NEW INTRODUCTIONS

Something Different — Something New
You Will Like Them

Fleming's FLOWER FIELDS Modern Mums — Mum Introductions

heavy rooted cuttings — per 10 — per 100

COPPER CARROUSEL (1963) A sturdy mound 10-14" high and up to 28" across covered with bright copper 2½-3" flowers . As the double flowers age petals reveal they are tubular with spoon tips . Copper color holds well into the season from early Sept. on 1.60 15.00

CORONATION GOLD (1963) Neat upright plants with rich green foliage 20-24" high and 20" wide . Fully double decoratives 3" across in clusters in rich orange, old-gold tones . A fine cut flower starting Oct. 1st , very frost tolerant . 1.60 15.00

FIREBALL (1963) A flowing mound of firey red balls , 2" flat poms. The fully double flowers are the colors of our variety New Firebird , a rich red with gold reverse . Mounds 10-12" high and up to 36" across glow with color from mid Sept late into fall. 1.70 15.00

GINGERSNAP (1963) Snappy little mounds of amber tan poms with bright n gingery eyes . The colors would be compared to those found in Streamlined. Storm-proof cushion 10-12" high and 20" wide are aglow with color from mid Sept on . 1.60 15.00

GOLDEN DOME (1963) A "king-sized " cushion 12-15" high and 28" across glows with rich golden-orange 2" double blooms in the autumn sunshine . A glowing dome of gold Sept. 20th on . 1.65 15.00

WINSOME (1963) The first of our new group of anemone-flowered mums for cutting . Stately bushes 28" high bears many stems of sugary orchid-lavender blooms with puffy anemone centers . The fluffy 3" flowers borne in clusters bloom from Oct 5th on. 1.65 15.00

The University of Nebraska Mums

UNIVERSITY OF NEBR. 1963 " FOOTBALL MUMS "
two new Viehmeyer giant-flowered mums

QUARTERBACK - A large bright rosy-pink fully double incurve 4-5" across borne on long strong stems for cutting . One of a group of large incurves with Bronze Giant in their parentage . Sturdy bushy plants which stand well in rough weather , 24-30" high and up to 30" across bloom from Sept. 20th on into late mum season . 2.65 25.00

Space Age Chrysanthemums

The "Space Age Mums" are a unique group of novel garden mums, early blooming hardy spider and quills created by Glenn Viehmeyer at the Uni. of Nebr. Experiment Station at North Platte, Neb. They are fine subjects for the garden or as unique potted mums.

Heavy Rooted Cuttings	Per 10	Per100

Two 1963 Space Age Mum Introductions

MOON-FLITE - Sturdy bushy plants 15-20" high and up to 30" across. Strong stems for cutting with clusters of 3½-5" fully double quills. The creamy white quills which deepen to primrose yellow at center are tipped with small sponns. These long lasting flowers start in early Sept. (pictured inside the back cover) 2.65 25.00

SPACE * FLITE - Sturdy, wind-firm, bushes 18-24" high and up to 24" across with glossy foliage. Flowers of a rich blend of apricot amber and coppery tones are formed by tubular-quill petals. Large 5-7" double quill flowers on strong stems for cutting. As flowers age the incurved center petals open to show a green disk. A Space-Flite blooms from late Sept. on. 2.65 25.00

Four outstanding 1962 Space Age Mums

SPACE-MAN - A king-sized cushion growing 15" high and 24" across. A mound entirely covered with starry bronze-red and tan toned 3" double quills. Blooms mid-Sept on, very frost tol. 1.70 15.00

STAR-LITE. Star-lite is truly a fine variety for border or a novel pot plant. Strong storm-proof plants 12-15" high and 24" across bearing numerous huge fully double, often 6", quills. These huge quills are deep ivory deepening toward the center to pale orange. Blooms from mid-Sept on. 1.70 15.00

STAR-FLITE - A neat upright, bushy plant 20" high and 22" wide. Plants bear an abundance of strong stemmed clusters of fully double quill flowers with spoon tips. The individual flowers 3-3½" across are a brilliant red-bronze. Blooms late Sept. 1.70 15.00

STAR-TRAIL - The best large early garden spider mun to date. A sturdy variety which heavy wind and rain will not break down. It starts blooming in August. Plant has growth habit in which the hew growth will cover over old flowers and a new group pf flowers will then cover over the old spent flowers. On these strong plants are borne numerous stems of huge spiders in brilliant yellow showing a small green disk as flower ages. Flowers are 5-6½" across. a fine disbud subject. (Picture on covers) 1.70 15.00

THREE OF THE BEST 1961 SPACE AGE MUMS

Heavy Rooted Cuttings per 10 per 100

APOGEE - meaning " The most distant point of a satellites orbit " A stong growing mound 24" high and 30" across . Flowers are of a rich lavender-purple , fully double and delightfully quilled are 3-5" across . Blooms from mid Sept. on . 1.40 12.50

ASTRANAUT - A strong upright plant 24" high . Stiff textured fully double blooms up to 6" across in typical glowing fall colors of gold , orange and apricot . Petals are quilled with spoon tips . Astranaut has the best flower of this 1961 group and was the most pppular with our visitors of this group . Quantity is limited so please order early . Blooms late Sept. on . 1.40 12.50

STARFALL - A strong wind firm plant 30" high bears large bright red bronze flowers on long stems . A pleasing two toned fully double quill with spoon tips . The outer quills are tan while the spoons are bright red-bronze . Blooms mid Sept on . 1.40 12.50

FOUR FINE 1962 INTRODUCTIONS FROM THE LEHMAN GARDENS

HAPPY BIRTH DAY - This new primrose-apricot beauty borne on fine strong plant gives an abundance of very good cut flowers . A favorite with arrangers . Plant 20" tall - Sept. 20th on . 1.30 12.00

RUTH LEHMAN - One of the finest in large double decoratives in glistening white . Large buds of pearly pink open into pure white massive blooms with a unique swirled center . Blooms from late September on , excellent cut flower . 1.30 12.00

SHIMMERS - Strong mounds 24-30" high . Shaggy firm textured 4-6" in bright lemon yellow resemble Ruby Breithaupt in form and size. Blooms from Oct. 1st on . 1.30 11.00

YELLOW GIANT - An outstanding companion for another Lehman great mum Bronze Giant . Yellow Giant closely resembles Bronze Giant in plant form and flower size and form . Huge double shaggy blooms in rich yellow . Blooms up to 5" across . Blooms in early Sept . A real favorite and standout here with visitors. 1.40 12.00

A TRIO OF BECKER BEAUTIES - 1962 INTRODUCTIONS from Gilbert Becker Nursery of Climax Mich.

ANDREW CUSHION - A strong plant 12-15" high and 24" wide . A dense mound of fully double 2½" blooms of soft strawberry, old rose-red tones . Very frost tolerant , blooms Sept 20th on. 1.40 12.00

PINK FRAGRANCE - A fine new quality pompon cushion 12-15" high and about two foot across . A sturdy flat-topped mound smothered with bright orchid-pink poms that are very frost tolerant . Plants have attractive dark green foliage . Pink Fragrance is sure to be a favorite with your customers too . 1.40 12.00

1962 INTRODUCTIONS IN MODERN MUMS

Becker Nursery 1962 Introductions
heavy rooted cuttings — Per 10 — Per 100

RED MASQUERADE - A much improved version of the popular variety MASQUERADE in new dress having a much hardier, stronger root system Buds are a rich plum red , stiff textured button-pom cover "king-sizes " mounds 12-15" high and up to 36" across . A late September blooming variety which is quite frost tolerant . 1.40 12.00

1962 MODERN MUM INTRODUCTION from FLEMING'S FLOWER FIELDS

DAINTY LASS - Miniature mound 8-10" high and up to 18" across thickly studded with bright orchid-pink firm fully double 1" buttons Blooms from Mid- Sept. on . 1.30 11.00

EARLY SNOWCAP (Markussen) Originating in the mum gardens of Mr. and Mrs. Avah Markussen in Lincoln, Nebr. A shower of white snowballs on strong upright mounds 15-18" high and up to 28" across . Flat white poms with craemy centers borne in clusters for cutting starting to bloom in late August . 1.40 12.00

GOLDEN GLEAM * Bright amber-yellow 3-3½" flowers formed of petals like gleaming rays , quilled petals . A fine source of cut flowers from Sept. 20th on . Strong upright bushy plants . 1.30 11.00

PIXIE GOLD - Myriads of elfin 1½" pixie poms of bright yellow accented with bright coppery eyes . smother sturdy low flat-topped mounds 10-14" high and up to 28" across . A dandy companion to the equally early blooming white miniature mound Sept. Snow Sprite. 13.00 11.

PRETTY PILLOW - The newest of our own unique series of anemone-flowerdd cushion mums . Close-knit mounds 12-15" high are bedecked with 1½" blooms in soft tones of apricot , peach-pink with darker pronounced crested or pillow centers . A very frost and freeze tolerant mum blooming from Oct 10th on . Admired by our local florists as a pot plant mum . 1.20 11.00

TWO FINE HARDY IVIES FOR GROUND COVER OR ROCK GARDENS

Heavy rooted cuttings unless otherwiise stated . per 10 per 100

IVY- BALTIC STARDUST - A delightful variegated form of baltic ivy . Leaves appear to be delicately dusted with silver and are edged silvery-white . Does fine in shade as a ground cover or as a house plant or for climbing masonary in shade . 1.70 15.00

IVY * BALTIC THORNDALE - A very hardy Ivy suffering very little damage even in rough winters such as we've had the past two years An ideal subject for shady ground cover or for growing on walls . This ivy has large dark glossy green leaves . 1.20 10.00

White Fairy- Starry blush white flowers on upright bushy 12" plants. 1.00 8.00

CARYOPTERIS (BLUE SPIREA) These are among the most useful of the shrubby plants for they are fall flowering and provide much needed blue flowers which are uncommon at that time.

BLUE KNOLL(Fleming,1962) - An extremely hardy, low growing new variety with darker flowers than the common " Blue Mist" sort and with short bushy plants, 30# high. We are sure that this fine newcomer will do well for you and your customers. 1.30 11.00

DARK KNIGHT - (Bentley) Attractive plants of upright plant habit, dark green foliage and dark bright blue flowers. The darkest-hued of the"Blue Spireas. It is especially recommended as a most attractive hedge plant and as a cut flower. 1.20 10.00

DIANTHUS (PINKS) Pinks are too well known and appreciated to require a lengthy discussing of thier worth.

CHEYENNE (NEW U.S.D.A.) A SUPERB FREE FLOWERING CARNATION. Fully double 2-2½" deep fuchsia-purple flowers on stiffly erect 8-10" stems . Quantity limited . $1.35 12.

CORAL CHARM (fleming 1963) Beautiful large double bright salmon carnation on strong 10" stems . 1.70 15.00

MRS. DINAH WELLER - Attractive grey green 2-4" foliage mounds studded with short stemmed large single pink flowers with rose red centers . 0.85 7.00

PINKETTE (Fleming) Three inch mounds of blue-green foliage with myriads of 1-1½" flowers of a soft pink with red centers. Petals are broad and waved . 1.20 10.00

PINK PIXIE (Fleming 1961) Compact plants 3" high and up to 9" across are loaded with double bright pink flowers from May until fall . One of the best everblooming rock garden or edging plant . A sell out in 1961 and again in 1962. Pink Pixie is very winter hardy here . 1.35 12.00

SPOTTY (Fleming 1962) Cute 2" mounds of blue-grey foliage liberally sprinkled with distinctively colored flowers . The blooms are a glowing rosy-purple and are edged and spotted with silvery white . There are two large white spots and a sprinkling of smaller spots on each petal . 1.35 12.00

MORE MODERN PERENNIALS

unless otherwise stated - heavy rooted cuttings per10 per 100

Dianthus SWEETHEART (Fleming 1963) Compact plants 4" high and up to 12" across with double bright rose blooms with red eyes borne in profusion on stiff 6" stems . 1.70 15.00

Dianthus TINKERBELL (Fleming 1963) A new dwarf , everblooming pink . Tufty 2-3" mounds with myriads of double bright rose pink flowers . 1.50 13.00

GAILLARDIA MANDARIN (new) Large bright orange red daisies . the petal tips of which are of a lighter hue . 1.35 12.00

HELENIUM COPPER SPRAY (New) Bushy 28-36" plants covered with 1½" daisies of a rich reddish-bronze with copper reverse . One of the showiest late summer-bloomers . 1.20 10.00

HELIANTHEMUM JUBILEE (New) An attractive new " Rock Rose " . Graceful miniature evergreen shrubby plants with numerous single bright orange flowers . An excellent evergreen mound for rock garden or front of the border . 1.00 8.00

IBERIS ALEXANDER'S EARLY - Compact plants 4-6" high with evergreen f foliage covered with white flowers in the spring . An earlier bloomer than other sorts , very winter hardy here. .85 7.00

IBERIS SNOW MANTLE (new , Bentley) A much improved form of Purity. Sturdy mounds of evergreen foliage with heads of large pure white flowers during the spring . A much stronger , hardier variety than other large flowered " Candy Tufts " 1.00 9.00

LYTHRUM PINK SPIRE (Fleming 1962) The best pink Lythrum to date. The flowers and flower spikes are comparable in size to those of Morden Gleam , and are similiar in color to those of the variety Morden Pink . 1.20 10.00

Pentstemon Henry Hybrids (viehmeyer '62) pictured below

Lythrum Robert - A dandy dwarf form. Spikes of clear fuchsia - pink flowers with reddish glow on plants 18" high. .85 7.00

Oenothera Rosea - Many sprays of soft pink flowers arise from compact leafy rosettes . Plants in bloom are 8-10" high. Rapid spreading ground cover.85 7.00

PENTSTEMON HENRY HYBRIDS (1962 Viehmeyer) The latest of the new hybrid Pentstemons created by Glenn Viehmeyer of the Uni. of Nebraska . Strong spikes of large bell-shaped flowers in shades of purple,lav.,rose and pink borne over glossy basal foliage mats . $1.40 13.00

MORE MODERN PERENNIALS

unless otherwise stated heavy rooted cuttings per 10 per 100

PHLOX DODO HANBURY FORBES- Extremely large trusses of bright rose flowers with darker eyes . One of the outstanding new Symons-Jeune varieties . 1.40 13.00

PHLOX ORANGE (new) A truly outstanding sort . Blazing orange-scarlet flowers . One of the brightest hued phlox we have seen . 1.30 12.00

RUTA BLUE MOUND - One of the best foliage plants we have grown . Attractive mound-like 18" plants with beautiful blue-green foliage . Tolerates hot sunny locations well . 1.00 9.00

SALVIA LUBECA - ("purple spires ") Numerous spikes of rich blue-purple flowers borne on 18-24" plants throughout the spring and summer months . 1.30 11.00

SALVIA OSTFRIESLAND - Another newcomer from Europe . Masses of bright purple flowers arise from basal rosettes of leaves . Plants in bloom are 15-18" high . 1.35 12.00

SALVIA GOLDEN VARIEGATED SAGE - A most attractive low bushy plant (10-12" high) with fragrant green , and yellow variegated foliage . Fine for hot sunny locations . 1.10 9.50

SALVIA TRICOLOR - Another strikingly different sage , this one with foliage which is mottled with green , purple-red and white , well drained soil , sunny spot . 1.00 8.50

SANTOLINA INCANA - Silver-grey hedge-like plants 12-15" high with aromatic foliage . Excellent for low hedges , borders or as a ground cover for hot & dry locations . 1.00 8.50

SANTOLINA VIRIDIS - An attractive shrubby plant with fine bright green foliage . Splendid as a ground cover or edging plant . Because of its resemblance to a dwarf evergreen we found it to be useful as dwarf " Xmas trees " when potted and brought into the house in December . .85 7.00

SEDUM MAXIMUM ATROPURPUREUM - ("nohogany plant ") Upright plants 20-28" high with large mahogany-red foliage overcast with purple tones . Large creamy rose flower heads . 0.95 8.50

SEDUM SPECTABILE INDIAN CHIEF - (also listed as Autum Joy) Compact erect plant 10-18" plants with large umbels of rose flowers which change to a glowing copper-red during cool weather. 1.10 9.50

TEUCRIUM CANADENSE - A rare ground-hugging Teucrium . Low evergreen foliage mats . 0.85 7.00

TEUCRIUM CHAMAEDRYS - Shrubby plants with small dark green waxy foliage which serves nicely as a dwarf hedge in locations where Boxwood is not hardy . 0.85 7.00

VERONICA PINK SPIRES - (New , Bristol) Long spikes of lovely pink during the summer months . 1.10 9.00

VERONICA SAPPHIRE - (Holophylla) The best dark blue variety . Rich blue-purple flower spikes , dark glossy foliage 1.10 9.00

MINIATURE ROSES

Exquisite replicas in miniature of Hybrid Tea Roses and just as hardy , on their own roots , are these little charmers , the miniature roses . The miniature roses , their bushes permanently tiny , growing into 6-12" high bushlets make novel impulse items when potted in bud and bloom for Florists , Nurseries Garden Centers etc.

We are happy to be able to offer a much larger selection of the finest and newest varieties as 2½-3" potted plants in bud and bloom from mid Dec. on thru spring . We will also have available a limited supply of larger potted plants in bud and bloom later this winter.

SIX FINE NEW 1962-62 Introductions from RALPH MOORE

GUARANTEE of TRUENESS of VARIETIES

We guarantee that all plants in this trade list are true to name. Should there be a wrong variety shipped to you , upon word from we will either replace these plants with the proper variety or refund in the amount paid by you for this variety .

Large-Flowered

Super Hardy Hibiscus

This new group of super-hardy large flowered Hibiscus is the result of an ambitious breeding program carried on in our gardens . The flowers are much larger than the commonly offered sorts , being 7-10" across and the petals are broad , ruffled and over-lapping.

Propagation of these charmers has been a slow process, thus at present we b offer them as named cclored series . These colored series are produced by propagating several choice selected clones of each color .This procedure makes possible more rapid increase of the choice sorts at a reasonable price .

The heavy 2¼" banded plants offered are ideal for spring sales through mail order. They also may be planted in larger containers for local sales in the spring . Growth is rapid hence they will develope into blooming sized plants in the field or in containers by mid-summer .

The following varieties will be available as 2¼" banded plants from March 1st on .

BIG RED - Huge velvety crimson red flowers measuring up to 10" across - petals are often attra ctively ruffled .

BRIGHT EYES - Large glistening white flowers with striking crimson red eyes Flowers are bowl shaped and stiff textured .

Hibiscus BRIGHT EYES

FLEMING'S LARGE FLOWERED SUPER HARDY HIBISCUS

CRIMSON GLORY - The first of our new unique series of cut leaf varieties . Plants are red stemmed and leaves are small and attractively cut to resemble oak or maple leaves. Blooms are 6-8" across , bowl shaped, of rich crimson color. Plants are shorter and more slender than many varieties.

LOVELINESS - Large shallow bowl shaped blooms of soft silvery lavendar pink with no dark eyes. A favorite with the ladies.

PEPPERMINT STICK - Huge flowers of white overlaid with soft Pink edging and dark red eyes. The pink edging is more pronounced on cooler days . Petals are often ruffled .

PINK PERFECTION - Our best truly pink variety . Large 7-9" stiff textured shallow bowl shaped blooms of a rich true pink with deep red eyes .

SNOWBOWL - Large pure white blooms with no contrasting eyes. This is a rarely offered form as most white hardy hibiscus have red eyes. Flowers are saucer shaped and stiff textured.

These hardy hibiscus varieties will be available from March 1st on. as heavy 2¼" banded plants .

	Per 10	Per 100
BRIGHT EYES , PEPPERMINT STICK, and SNOW BOWL	$3.00	$25.00
LOVELINESS	$3.25	$27.50
BIG RED and CRIMSON GLORY	$3.50	$30.00

From our breeding program we have made a number of exciting selections for further test and introduction in the near future. These selections include a range of colors from pure snow white through blush , pinks , cerise , roses, scarlet, watermelon and raspberry tones in the UNIQUE CUT LEAF SERIES .

We also have a start toward a fine break in colors for hardy hibiscus in the yellow tones . We have a number of light primrose, old cream , very light yellow and bi-colors of light cream and pink tones . From these , with fingers crossed we hope to produce a series of colors found in the tropical varieties of salmons, shrimps, corals, golds , orange etc.
